COMPUTER CLUB  
KEEPING YOU ON LINE

FEBRUARY 2013

## INFONITES:

The *INFONITE* on Thursday, February 26<sup>th</sup>, commencing at 7.00 pm will again be presented by our helpful friend, Peter Bennett. Peter's topic this month will be a practical demonstration of how he can help repair your computer problems over the Internet, that is "Remote Support". Peter will bring a couple of computers and set up two projectors and screens to demonstrate how he can work on a computer from another one. This service is available to all of us and is really worth becoming familiar with. Peter will also touch briefly on other computer related topics of interest to us and of course there will be question time. As usual, Peter will stay around for supper and will be available for some one on one discussion.

The March *INFONITE* has now been decided and we are pleased to announce that the long awaited 5-10 minute presentation of topics of interest by members will go ahead. These topics will just be a brief introduction to the various subjects. If there is sufficient interest a workshop or a one on one tutorial could be arranged in the future. More details will be given at our February *INFONITE*.

## BUNDABERG DISASTER FUND RAISING:

All Village Clubs in conjunction with the Social Activities Club are planning to hold a fund raising BBQ lunch on Sunday 17<sup>th</sup> March to support the Bundaberg Disaster Fund. Clubs have been asked if they could contribute to this fundraising occasion. Our Computer Club has agreed to donate \$200.00 and also to donate the profits of our February Raffle to the fund. This special raffle will have the usual prizes plus a painting donated by Geoff Maidens. Please come along and support this most worthy cause. Remember to bring a little extra cash for a few extra tickets.

## TUTORIALS & WORKSHOPS

The Club plans to again conduct Workshops and Tutorials in 2013 commencing in May if there is a demand. Workshops, to be run in the Computer Room on the 1<sup>st</sup> and 3<sup>rd</sup> Thursdays of the month, will be for small groups of members all interested in the same topic. Tutorials are One on One lessons, either at member's home or at the Computer Room. At coming *INFONITES* and in future Newsletters we will be asking for those who would be interested in either of these services and what it is they need instruction with. As long as the Club can find suitable instructors then the topic will be offered. Please let a Committee Member know ASAP of workshops you would like or the name of possible instructors. NOTE: You MUST be a MEMBER of the Computer Club to be involved in Workshops or Tutorials.

## FEES & MEMBERSHIP:

As mentioned in previous Newsletters, the annual Membership Fee is due at a charge of \$5.00 per Member per year. To date the treasurer informed us that we have 115 members. 15 of these are new members. Welcome. There are however 19 previous members who are not yet financial for the 2012-13 year. Please contact Treasurer Jeff, Unit 212 ASAP if you intend to join again. He will be available to collect fees at the February *INFONITE*. Remember, if you struggle to understand the complexities of computers, then this is the club for you. BUT if you are and "EXPERT", then we NEED you to help out with the many problems that computers thrust upon us.

Please make an effort to attend our February *INFONITE* for the following reasons:

- 1: Peter has a most useful presentation for us.
- 2: Come and support our fund raising for the Bundaberg Disaster Relief Drive.
- 3: Last but by no means least, to enjoy friendship and a GREAT SUPPER.

Hope to see you all there,

Secretary Laurie, Unit 303. Phone 4723 1818.

For now, Happy Computing
